

# Senior Systems Administrator / Network Engineer

**(NO RECRUITERS PLEASE)**

We have an opportunity for a Senior Systems Administrator/Network Engineer providing proactive IT solutions in the New York City/New Jersey areas.

- Be solution driven! Work with industry leading vendor partners such as Microsoft, Apple, Cisco, Dell, HP, IBM, SonicWALL, Kaseya, Kaspersky and APC.
  - Use your experience in
    - Implementing & troubleshooting Microsoft Server 2003/2008/2012 environments
    - Secure data networks using industry best practices
    - GPO implementation and troubleshooting
    - Designing and setting up a TCP/IP network including DNS, DHCP and WINS
    - Implementing and configuring a Microsoft Active Directory.
    - Building and configuring IBM/Dell/HP server equipment.
    - Setting up and implementing virtual environments using HyperV/VMware.
    - Designing, setting up and implementing Microsoft Exchange 2007/2010/2013 email environment.
    - Configuring and troubleshooting switches, routers and firewalls.
    - Installing equipment and application software.
    - Design and installation of VDI environments
    - Scripting.

## **You'll excel if you:**

- Have previous experience working in a fast-paced systems integrator, professional services organization, or managed service provider
- Have technical project design/leadership experience
- Enjoy working with existing clients and is eager to engage potential new clients
- Have a service oriented attitude - will do what it takes to get the job done **correctly**
- Have the ability to manage multiple technical projects simultaneously with minimum oversight
- Have technical lead experience
- Are eager to learn, pick up new technologies easily and can become proficient in a short time
- Prefers knowing a broad range of technologies as opposed to being highly specialized in a few

## **For your hard work you'll be rewarded with:**

- Ability to be reimbursed for obtaining pertinent job certifications.\*.
- Health insurance with a portion of the premium paid.
- Paid Time Off Policy plus paid Holidays.
- Dental & vision insurance offered

## **Why choose us?**

- We're a group of professionals who just love technology. We live it, breathe it and find ourselves playing with technology even when we're not working—just like you!
- We are committed to personal growth. You'll be given a day every quarter to work on an area of personal growth of your choosing. Our team is allowed to use their technical skills and experience to solve complex problems, yet interact directly with the customer.
- We provide proactive IT services, not break/fix, so you'll be responsible for engineering system solutions to protect customers from downtime.
