FOR IMMEDIATE RELEASE

CAMINO REAL SELECTS SMARTCARE FOR ITS INTUITIVE FORMAT AND FUNCTIONALITY

Kalamazoo, MI – [December 12, 2014] – Streamline and Camino Real Community Services formed a partnership that will help improve their business efficiency, enhance the quality of patient care, and produce cost-effective outcomes. Camino Real Community Services determines eligibility, coordinates care and manages a network of providers of direct services in 9 out of 254 counties across the state of Texas. Camino Real also provides services to persons with mental illness, intellectual disabilities, and developmental delays who meet eligibility criteria.

Emma Garcia, Executive Director of Camino Real said, “The functionality of SmartCare and its intuitive format were the primary reasons for our selection. SmartCare holds the promise of customizable and flexible features that greatly improve efficiencies from the beginning point of data entry of direct services by the clinician to the processing of clean billable claims.” She continued on by saying, “The automation of processes with both clinical and business functions provides a user-friendly environment that makes this software solution an ally in supporting staff to be the most effective in performing their jobs. SmartCare is a solution that supports Behavioral Health and Developmental Disabilities programs alike and offers features that can evolve as programs evolve their capacity to serve these populations.”

“We are excited to partner with Camino Real. SmartCare will provide many beneficial features and functionalities to Camino Real, including our dashboards, reporting capabilities as well as meet their state reporting requirements. Our integrated services will provide the care coordination needed throughout Camino Real and the state of Texas.” said David Ryland, Co-CEO Streamline Healthcare Solutions.

About Streamline: Streamline Healthcare Solutions (Streamline) delivers web-based software for healthcare organizations to provide and coordinate specialized behavioral service delivery processes. Streamline’s SmartCare™ solution was developed to truly integrate all departments; moving them to a more holistic service model. Streamline’s software solutions are well suited for organizations who wish to have a system that can incorporate its entire business processes into a single solution, with the ability to continue to grow as business-lines needs evolve.
