

## Hosted Server and Infrastructure

The Hassle-Free, Low Cost Approach to Hosted Server and Infrastructure Solutions.

### Outsource your Infrastructure

*Eliminate the need for extra office space, and abolish management and hardware costs by virtualizing your servers!*

Everybody has heard of 'the cloud,' but many businesses are unaware of the many benefits that cloud hosting can offer small and medium-sized businesses.

By hosting your server in a reliable, properly controlled data center, your business will have less hardware to maintain; this means more space, reduced electricity consumption, and less overhead. Best of all, MTG's IT experts manage your infrastructure for consistent reliability, stability, and uptime. Your data always has backups of backups, and antivirus and security protection is handled in-house by MTG.

### Revolutionize your IT

*Stop purchasing expensive hardware*

With purchasing servers comes licensing, maintaining, upgrading, patching, and troubleshooting –then you need to purchase new servers again in 3-4 years! MTG's data center delivers safe, dependable access to your servers without worrying about security patches, software updates, and hardware management. Our server solution is scalable to any size business regardless of growth!

### Flexible Computing

*Easily access files and applications from anywhere—flexible, mobile, and always on.*

MTG's hosted server solution is perfect for businesses with multiple locations or remote employees by empowering them to access their work from anywhere. Applications like Microsoft Office, Outlook/Exchange, and your business tools (such as your accounting suite and CRM tools) are all available to users. In other words, it's your IT environment hosted in MTG's data center, which drastically reduces overhead.

### Move your IT Environment to the Cloud

*Take your whole IT to the cloud*

MTG boasts a wide array of hosted infrastructure solutions including data storage and desktop virtualization to enhance your business! Stop stressing about hardware and software upgrades—Set up a consultation with MTG today to see how much you can save with our Hosted IT Solutions!
