Bloomfield Hills, Michigan, September, 2011 - The Anderson Group, LLC, an operationally focused private equity firm, has invested in Cole Kepro International, LLC. Cole Kepro, headquartered in Las Vegas, Nevada, is a leading designer and manufacturer of turnkey cabinets, such as video and slot machines, for the global electronic gaming industry.

“We look forward to working with the team at Cole Kepro and building upon the Company’s proud history and strong brand recognition. Currently there are some very compelling dynamics in the gaming industry and Cole Kepro, with its industry leading products and brand reputation, is well positioned to take advantage of these industry trends,” said Cory Gaffney, Anderson Group partner. “Combining Cole Kepro’s industry expertise and innovative research and design efforts with Anderson’s operational expertise and financial resources, we believe Cole will be uniquely positioned to continue to offer its customers world-class service and high-quality, cutting edge products.”

This investment is the third platform transaction for Anderson in 2011 and fits the private equity firm’s strategic investment philosophy. The Anderson Group utilizes an operationally-focused investment strategy to target opportunities in middle market niche manufacturing, distribution and service-based businesses. Anderson continues to seek both platform investments and add-on investment opportunities to strengthen its long-term partnerships.

About The Anderson Group

Founded in 1985, with offices in Bloomfield Hills, Michigan and Shanghai, China, The Anderson Group is an operationally-oriented private equity investment firm focused on acquiring and operating companies at the lower end of the middle market. Senior professionals at Anderson each have between twenty and thirty years of operational experience in various businesses and industries. Anderson specializes in three types of transactions: leveraged recapitalizations, turnaround opportunities and special situation investments. In leveraged recapitalizations, Anderson seeks to partner with current ownership of healthy businesses and leverage its operational experience to generate significant growth in profitability. In turnaround transactions, Anderson targets good businesses that are experiencing financial difficulties that can be addressed with a comprehensive restructuring plan. In special situation investments, Anderson looks for situations where smaller or neglected divisions of larger companies are seeking to break away from their corporate parents or businesses where current ownership is seeking liquidity but at the same time is desirous of maintaining a substantial equity stake in the business after the sale. In each instance, The Anderson Group seeks to invest in only those opportunities where we feel we can leverage our operational experience and partner with management to create value in a business.
