FOR IMMEDIATE RELEASE:

XPERTECHS Named One of the Top-Performing SMB Channel Partners in the U.S.

Ellicott City, Maryland - October, 2012 – MIT Group, dba XPERTECHS, today announced it has been named to the SMB 500. Unveiled at the 2012 “Turn the Tables” Fall SMB Invitational in Rancho Mirage, Calif., the inaugural list celebrates the top 500 fastest-growing U.S. tech companies focused on small and midsize businesses (SMBs). Ranked at number 178, XPERTECHS grew its business by more than 200 percent growth between June 2009 and June 2012.

The 2012 SMB 500 list was derived from the more than 20,000 U.S. solution providers and MSPs who work with the U.S. SMB Business Unit. Those channel partners named to the list demonstrated a consistent, average three-year growth rate of more than 200 percent. The list also takes into account select criteria such as company size, overall technology category revenue growth and innovation with SMB business engagements.

“We are extremely pleased and honored to have made the inaugural SMB 500 list,” states Michael Mellott, President of XPERTECHS. “Being recognized on this list demonstrates XPERTECHS’ continued success and growth throughout the Baltimore/Washington Corridor, and in the managed services industry.”

“Technology plays a critical role in the overall growth, operational scale and continued sustainability of SMBs across the U.S.,” says Kirk Robinson, vice president and general manager, Commercial Markets Division, Ingram Micro U.S. “As one of this year’s top-ranked SMB channel partners, XPERTECHS has demonstrated its business strength and sent a clear message that serving the technology business needs of SMBs is a top priority. We congratulate XPERTECHS on this accolade and look forward to enabling their continued success in 2012 and beyond.”

About XPERTECHS

XPERTECHS is a leading Convergent Technology company offering a full range of services including Microsoft network solutions, LAN and WAN connectivity, Proactive IT Managed Services (XperCARE), Cloud Solutions (Cloud Xperience), Network Security, and Training.
