

FOR IMMEDIATE RELEASE:

SJEC Enrolls in XperCARE Proactive Managed IT Services Offering (www.stjohnsec.org)

Ellicott City, Maryland – January 30, 2011 – After years of using XPERTECHS strictly on an as needed basis for IT support, SJEC has agreed to enroll in the XperCARE Proactive IT Managed Services offering that provides 24/7 coverage of their IT infrastructure.

St. John’s Episcopal Church Parish & Day School (SJEC)

SJEC has requirements for both the Parish Day School and the Church that requires a solid IT environment that is dependable and secure while providing a technology plan for the future. “XPERTECHS was able to demonstrate the necessary level of IT competency and CIO capabilities that we so badly needed to maximize our technology investment. We are very pleased with the support and guidance that XPERTECHS provides us”, said Kendle Priestley, Parish Development Director.

“We have been assisting the computer support person at SJEC for the past 4 years on an as-needed basis, usually after issues escalated and more severe. After a server crashed and data was lost, we convinced SJEC that our XperCARE 24/7 Proactive Managed Services was a good fit. The network is now reliable and the data is stored off-site for complete disaster recovery. We are pleased to add SJEC to the many private schools we support says,” Michael Mellott, President of XPERTECHS.
