### ScanForce Premium

**\$13,995**

One of the most comprehensive warehouse management modules in the market, ScanForce Premium includes the features and functions of ScanForce Fundamentals *and* ScanForce Advanced *plus* the location management of a Multiple Bin Solution! Dive deep into location details in your warehouse with the ability to track not only what items and quantities are in a warehouse, but *where* in that warehouse those items are located. Quickly find items and track those items' movement throughout your operations. Allocate items from bin locations for easy to view features such as: Directed Picking taking you to the exact location of a specific item to be picked; Pick an item and stage it to a specific bin location during your Picking and Shipping process; transfer an item from a bin location to another location with instant data updates back in Sage 100; and use Directed Put Away to guide employees to locations in the warehouse during your receiving process.
