Compensation package

Our salary structure is in line with Industry standard. Attractive performance Bonus

Company Description:

Laconic provides business development solutions “beyond traditional ERPs” for fast growing SMEs who do not have in house the necessary competences for significant growth. Using a cutting edge “web and pure cloud” technology we deliver in real time essential data tracking and reporting allowing smart and traceable decision making. Our end-to-end Products and associated Services range from Enterprise ERP, B2B data exchange platform, and ERP as a Service, through a wide range of front-end business modules.

Since 2006 we have been granted Thailand Board of Investment (BOI) No: 1268(7)/2557 privilege under Web-based, Application and Cloud Computing. This coincides with the Government’s recent announcement to push for Thailand 4.0 -- transforming traditional SMEs into smart enterprises, and traditional services into high-value services.
