

About BeckITSystems

BeckITSystems was founded in 1999 to enable small and mid-sized organizations to use technology to grow, manage, and protect their data assets. BeckITSystems provides a full menu of Technology As A Service (TAAS) selections. Cloud Computing, Chartered Technology, HD Videoconferencing, Total Network Security, Managed IT Services, Data Backup, CTO Strategic Leadership, IT Budgeting, and On-Demand IT Support Services are delivered 24x7 from multiple operations centers across the USA.

This approach has assisted many successful organizations to meet their goals through the strategic use of technology. BeckITSystems grows as our clients grow all while building a culture of putting people first. That's why we are "**Dedicated to your success!**".

We believe in the power of small and mid-sized businesses and the entrepreneurial values they represent.

Contact BeckITSystems for all of your IT needs:

- **Cloud Computing**
- **Chartered Technology**
- **Managed IT Services**
- **Data Backup & Recovery**
- **Help Desk**
- **Business Planning**
- **Budgeting**
- **On-Demand IT Support**
- **HD Videoconferencing**
- **Total Network Security**

MANAGED IT SERVICES

BeckITSystems' array of essential IT services are provided on a fixed subscription basis. This eliminates the hidden costs of IT which can be considerable. We also minimize IT hassles leaving you free to work **on** the business and not **in** the consumed with solving IT problems. Working as an extension of your business, BeckITSystems' Managed IT Services return value for your IT investment.

- **Server Management**
- **Network Management**
- **Total Network Security**
- **Data Protection & Rapid Recovery**
- **HD Videoconferencing**
- **PC Management & Toll-Free Help Desk**
- **Peace of Mind**

Total Network Security

Network Security requires five basic elements:

1. Firewall,
2. Anti-virus,
3. Internet Content Filtering,
4. Intrusion Prevention, and
5. Wireless security management.

Security begins at the firewall and each additional layer must be integrated with the firewall. Managing these five key elements can be time-consuming and difficult, yet they are imperative for a business network to operate without unwanted interruption. Do you have a firewall? Is it updated regularly just as your anti-virus is updated? Get your free security assessment today!

ON-DEMAND IT SUPPORT

This service provides many of the advantages of the Managed IT Services plans with the flexibility of a pay-as-you-go service without sacrificing critical IT support. The small monthly fee guarantees 24x7 monitoring with remote management, network security, data protection, scheduled preventative maintenance, and access to a complete IT department—including a senior level Chief Technology Officer (CTO) for strategic and budget planning.

Cloud Computing at work for you

IS CLOUD COMPUTING RIGHT FOR YOU?

The best businesses excel because of what they do, and because of what they decide not to do. BeckIT-Systems works with organizations that know the value of technology, and realize it is not in their best interest to try to become IT support experts.

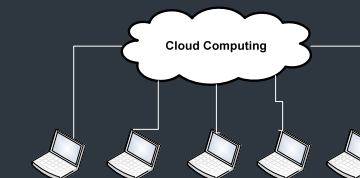

Cloud Computing provides control of it all:

- On-demand servers
- Unlimited data storage
- Meet changing needs at a moment's notice
- No Long-term requirements
- Pay only for what you use

HAVE ALL THE IT YOU NEED!

Your organization can be more agile & efficient with the Cloud Computing for accessing IT resources. Move beyond the expensive model of business computing we all know and hate! Achieve:

1. Efficiency through utilization & automation.
2. Agility with control
3. Freedom of choice
4. Security & Availability for all your computing resources from the cloud.
5. Control of all your IT assets

CHARTERED TECHNOLOGY

BeckITSystems' Chartered Technology includes **everything IT** your organization needs to succeed. Never again spend money on computers, Microsoft Software and network components. Direct that money to sales, R&D, training, or other organizational needs. Chartered Technology's Hardware as a Service" (HaaS) provides the IT equipment & services needed to keep your organization running, 24x7. Also included are: help desk, technical support, monitoring, management, engineering, administration, network security, data backup and recovery, more...

FINALLY! TRUE VALUE FROM YOUR IT WITH NO FINANCIAL SURPRISES!

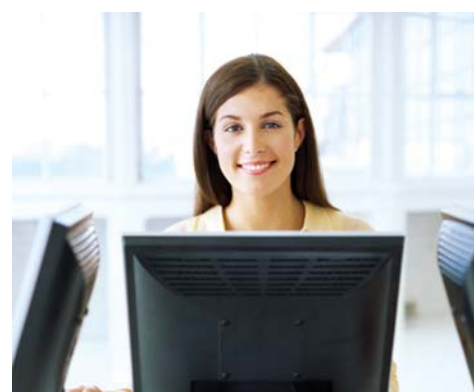

CLOUD COMPUTING WITH CHARTERED TECHNOLOGY ALLOWS YOU TO:

- Quickly respond to business changes
- Pay only for what you use.
- Eliminate costs for complex & expensive software
- Save cash through economies of scale that provide enterprise-grade resources affordably!

TECHNOLOGY MANAGEMENT PROVIDES A COMPLETE IT DEPARTMENT.

DATA PROTECTION & RECOVERY

Backing up data is NOT enough! The information you rely upon is critical to daily operations. It will only remain available when it is carefully managed & protected.

It is critical to monitor and test the data backup systems regularly. Relying on traditional methods is flirting with disaster. BeckIT-Systems' "Bullet-Proof Data" is the safest, most reliable and affordable way to protect your data all day, every day. There is nothing additional needed.

Back up all servers all day every day with data storage in off-site data centers more than 500 miles away from you.

- Spare stand-by server ready at a moment's notice
- Automated Local data backup
- Off-Site backup storage
- Fast Data Backup
- Faster Data Restoration
- Secure, Encrypted, Fully Compliant

DATA PROTECTION

Data Backup is NOT enough! Your information is mission-critical to your organization. Backing up data on-site with traditional media is courting a disaster. Introducing Bullet Proof Data—total data protection with disaster recovery. Bullet Proof Data provides the safest and most reliable data protection available—

AFFORDABLY!
