

RE: San Diego Sports Medicine Primary Care Sports
Medicine Fellowship Program

Dear Fellowship Applicant:

Thank you for considering San Diego Sports Medicine and Family Health Center. San Diego Sports Medicine and Family Health Center is accredited by AOA through the Western U/COMP/Arrowhead Regional Medical Center Family Practice Residency Program. San Diego Sports Medicine Center has offered Primary Care Sports Medicine Fellowship training since 1984.

The eight principle instructors, Dr's. Parker, Anthony, Ralph, Richburg, Look, Evans , Rohrer and Rodriguez are community-based Family Physicians. The Center is comprised of three departments: Family Medicine, Orthopaedics and Health Enhancement.

As Team Physicians for San Diego State University Athletics, Grossmont College Athletics, and several area High School teams, our program offers tremendous opportunities for team experience as well as access to research populations.

Primary care clinical responsibilities are required in the Departments of Family Medicine and Health Enhancement. Orthopaedic Clinical experience is required in the Orthopaedic Department. Additional clinical and didactic experiences are required through UCSD, San Diego State University (SDSU) and various community resources.

Spending time at our facility completing a month rotation is strongly recommended and increases the opportunity for selection as a Fellow. If your schedule prevents you from spending an entire month, please call and discuss the possibility of spending at least a few days at our facility.

Enclosed you will find San Diego Sports Medicine and Family Health Center's Family Practice Sports Medicine Fellowship Scope Handout, Clinical Rotation Information and Fellowship Application.
