

PRESENT~INTERACT~COLLABORATE

Wireless Solutions For Any Environment

What is wePresent?

wePresent offers professional wireless presentation systems that allow up to 64 users to share content from any device To Present, Interact and Collaborate.

How Does wePresent Work?

wePresent connects to any display by HDMI or VGA and creates a wireless full 1080p resolution. wePresent can be easily integrated into any network environment, ensuring fast and reliable presentation mirroring at up to 30 frames per second. With a built in wireless access point, wePresent can provide an additional Wi-Fi signal for guests and meeting participants.

Is wePresent Secure?

wePresent offers enterprise level security with AES-128bit or SALSA20 data encryption, gatekeeper settings, and individualized control over IP settings. Learn more about the Data Encryption offered on our wireless presentation gateways.

Present From Any Device with Ease

Windows. MacBooks. iOS. Android. Chromebook. Chromecast. Connect it all for presentation sharing. With wePresent's smart technology, BYOD meets wireless projection.

Which System Is Right For You?

Present Series: The Entry Level System

WiPG-1000 - Our basic 1080p wireless presentation system offering screen sharing from any device, includes an auto-on feature.

Interact Series: Engaging Features

WiPG-1600 - Seamlessly integrates into existing LAN networks, making it the ideal solution for classrooms and small huddle spaces.

WiPG-2000 - Offering the most features for interactive experiences. Part wireless system, part media steamer, part perfection.

Collaborate Series: The Flag Ship System

WiCS-2100 - Seamless sharing, improved BYOD compatibility and intuitive on screen moderator controls.

The SharePod is a unique pairing solution to wirelessly connect any HDMI source into a wePresent environment. The SharePod allows secure, controlled guest access to wePresent's interactive and collaborative presentation features without compromising network security.

What's New In The wePresent WiCS-2100?

The WiCS-2100 taps into the power of group dynamics with fun and stylish collaboration tools such as visual user lists for moderators and auto layout for sharing content from multiple devices. The WiCS-2100 provides businesses and educators with new features specifically designed for more effective collaboration with our wireless presentation gateway.
