Project: 2015 Roof Rehabilitation Project
1205 Building – Multi-use Building
1205 E. 70th Street
West Allis, WI

Brief Description: The original built up roof system was at the end of its service life. The roof was 25+ years in age with several roof leaks. The roof survey previously performed identified the need to replace the roof including the roof insulation, add tapered insulation and replace the roof. The project was designed, bid, with Project Management provided.
