

ITS Fax

An Electronic Fax Offering

Innumerable Benefits

Enjoy the value that our ITS Fax service will add to your business. With ease of use, you will be impressed by how quickly our Fax solution will become an instrumental tool for your business. In addition, there are a number of time and cost savings associated with using ITS Fax services:

Lower Costs

With the ability to quickly delete unwanted or “junk” faxes from your computer, you will prevent your business from incurring the costs associated with printing these faxes on a traditional fax machine. This is just one of the many benefits available to you when using the ITS Fax solution.

Other Key Benefits Include:

- Save time with sending or receiving faxes from your PC - virtually from anywhere in the world.
- No dedicated phone line required
- Faxes will be received even when computer is turned off
- Increased privacy with fax access at your own computer rather than sitting on the office shared fax machine
- Speedier fax process with no busy signals
- Access to a powerful web portal which allows for user management with the ability to view fax history

How it works

ITS Fax Solution is Second to None

With our advanced electronic fax solution, sending a fax is now as easy as printing. Anything on your PC that you can see can be faxed! It converts faxes to emails and emails to faxes as well as PC to fax and Web to Fax. You will have access to nationwide local fax to email numbers as well as local number portability ensuring your business keeps the fax number that you want. All of these features along side a powerful web portal to customize your fax’s functionalities makes our ITS Fax solution a must have for your business.

The Power of the Web Portal

- **Real time web reporting** - Create your own reports and download them into CSV or Excel
- **Easy, one click resend capabilities** - Resend or forward a fax from the web. With auto-retry from within the network - send and forget
- **Web management of Accounts** - view send and receive history by user
- **Global fax network** - Increased reliability of fax delivery
- **Green Friendly** - Save paper and ink by receiving faxes on your PC

Stay in touch with your clients from across the street or across the world with this easy to use, scalable, cost and environment friendly solution.
