

DEVsource donates technology services to Life House Care Center

Special to the Ledger

Life House Care Center recently received a donation of managed technology services from DEVsource. The DEVcare annual contract, which has a value of \$4,500 includes network monitoring, unlimited remote support, unlimited scheduled and reactive on-site labor, patch management, virus updates and spam filtering.

“Thanks to the DEVsource team we can breathe a little easier,” said Life House Director Stephanie Kelly. “Since we are a non-profit organization, we try to pinch every penny that comes in and be good stewards of our money. This donations is a huge blessing to Life House and it’s because of generous people like DEVsource that we can help so many.”

“DEVsource is fully committed to donating our top tier of service to an organization that we believe brings tremendous

value to women and our entire Hopkins, president of community,” said Mike DEVsource. “Stephanie, Kristi,

Barb and all the volunteers work tirelessly and selflessly to help women who are scared, confused and hurting during and after crisis pregnancy situations. We are honored to be able to serve such humble and caring people.”

Life House Care Center was established in April 1983 for the purpose of helping women and girls facing untimely pregnancy. Life House is a private non-profit Christian ministry that is solely supported by donations. All services are free of charge and completely confidential. For more information, call Life House at (270) 753-0700.

DEVsource was founded in 2001 to help businesses in western Kentucky and northeast Tennessee use technology to lower costs and increase profitability. For more information, contact DEVsource at (270) 753-8707 or visit www.devsource.com.
