

For Immediate Release

Digitel Corporation is the 2010 Atlanta Consumers' Choice Award® Winner for Telephone Equipment Sales and Service

Atlanta, GA – March 5, 2011 – Digitel Corporation, an Atlanta based business communication and IT company, took top honors at the 2010 Consumer's Choice Award Gala in the Telephone Equipment Sales and Service category. Digitel was among more than 70 companies gathered at the Ritz Carlton on March 5, 2011 for the 2010 Consumers' Choice Award® Gala. The award is based on a survey of businesses in Greater Atlanta responding to a questionnaire on customer satisfaction. The survey was conducted by Survey Sampling International®, a global leader in customer satisfaction studies.

Digitel, founded in 1983, is one of Atlanta's oldest and most respected providers of business communication equipment and services. "Our team is focused on providing our customers exceptional voice and IT service and this award lets us know that our efforts are working," said Jerry Bailey, President of Digitel. "Our business customers rely on us every day to keep their phone and data networks running. With this award not only comes the recognition of our drive for service excellence, but also the responsibility to continually improve on the high level of service quality that our customers have come to expect from us."

About the Consumer's Choice Award: The Consumers' Choice Award® is an initiative of Consumers' Choice Institute which has retained a leading independent research firm to conduct surveys in major Canadian and U.S. cities. It is unique in North America as the winners are determined by consumers and not by a panel of judges. It covers a broad range of categories of interest to both the public and business communities. Its purpose is to publicly identify those establishments that have been voted by consumers as being their choice for excellence. The Consumers' Choice Award™ is a most prestigious tribute to businesses that serve their clients well. The program is encouraged by all levels of government and by business leaders.

About Digitel Corporation: Digitel Corporation is focused on providing innovative communication and networking solutions for small to mid-sized businesses from the leaders in networking technology including Cisco, Avaya, VMware, Adtran and our cloud communications service, FreedomPipe Hosted iPBX services. Digitel Corporation understands that today's advanced technologies, when properly planned and deployed are business solutions that reduce costs, increase profitability, and ultimately improve a company's ability to more effectively serve their customers.
