

Welcome to the Complete Office in the Cloud

Envision is here to help you move to Microsoft Office 365 confidently and securely. Our clean, low-impact migration process is designed to support your organization users at every step of the way, while helping you get the most out of your investment

The Same Office You Know, Simply Better

Business Class E-mail

- ✓ Email with 50 GB mailbox per user
- ✓ Sync emails, calendars, and contact info across your devices in real time
- ✓ Built-in anti-spam and anti-malware protection

Work Whenever, Wherever

- ✓ Familiar, consistent experience across favorite devices makes on-the-go document creation, review and collaboration easy
- ✓ Install Office on up to 5 devices per user (PCs/Mac, tablets, smartphones)
- ✓ Secure access to your documents from always- even through a web browser

Built-in Collaboration

- ✓ With integrated Skype for Business, your organization can instantly connect in real-time via video, voice, or instant messaging (up to 250 people per meeting)
- ✓ Teams can work together on the same file while keeping track of changes
- ✓ Share files with anyone you choose inside and outside the organization

Better, Simpler IT Management

- ✓ Grow while spending less with **per-user monthly pricing** and lower up-front costs.
- ✓ Always have the latest version of the Office Suite
- ✓ Say goodbye to costly Exchange server purchases and maintenance

Control, Security and Compliance

- ✓ Customizable security policies by user and device
- ✓ Retention and archiving features help with in-place legal hold and case-based projects
- ✓ Outlook Multi-factor Authentication: Securely access content anywhere for when you're away from the corporate network
- ✓ Financially backed service-level agreement
